

*We sing  
because  
we can't  
speak  
anymore.*

**Thank you for another really great rehearsal!** You're all working hard and it shows! Please keep it up. We've got a lot of very special music that will touch a lot of hearts this December. The music rep committee chose songs that (I believe) will speak to different beliefs and traditions, while still holding true to our mission. I think it is absolutely amazing that so many women, from so diverse backgrounds and beliefs can come together and, through our music, model openness and honor to what is good and kind in the traditions and faiths we each follow. Building unity instead of division... and being a light in the darkness that is closing in around us. Thank you all for that grace.... truly amazing.
