**A SUPERB** rehearsal last Sunday! Thank you for listening to the YouTube videos and part tracks - it really shows when you're working, and it helps all of us not only learn the music faster, but better. We can work on making music rather than just learning notes! Please keep listening to the pieces and working on your part tracks. A lot of work went into making those part files (THANK YOU!).. and they help so much!

We've got our small ensemble - 12 singers who are willing to put in extra work for some extra challenge to help our concerts have a little more variety. I'll also be pulling from this group for the occasional solo or small group parts. Thank you all, too!

**PLEASE** look at my notes below this newsletter for who is singing which part for A Million Dreams & When You Believe.

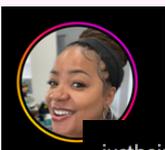

Laura Foutch - Sep 5  
 Jan Vander Meer - Sep 9  
 Jennifer Corbin - Sep 12

**There's so much we all care deeply about. Here are a few things we can drop!** Melani Sanders started an internet sensation with simple readings of lists -- things that women going through menopause, perimenopause, or really any age, can finally let go. Check out the link below this newsletter to her YouTube channel, but you can follow her on FB, Instagram, or Tik Tok as well. Enjoy and feel free to bring your "Do Not Cares" to our rehearsal breaks!
